PROGRAM

WORD USERS,

Yes you can!

Doc-To-Help

Learn More @:

DOCTOHELP.COM

With your Microsoft Word documents and one Doc-To-Help project, you can publish content to the Web, mobile devices, print, and desktop.

Keep it simple and just publish outputs, or benefit from countless single-sourcing, customization, and content management features. Even integrate with Microsoft SharePoint. So, go ahead, use Word and be amazing.

Welcome to STC's Technical Communication Summit and 59th Annual Conference!

Welcome to the Society for Technical Communication's Summit, our 59th Annual Conference! We have a great lineup of presenters this year, speaking on a myriad of topics and for every level of experience. In the Expo we have over 45 exhibitors ready to show you their newest products. And of course, we offer multiple networking opportunities to help you greet old friends, meet new friends, and perhaps even find your next job. This year, I'm extremely excited to welcome Scott Berkun as our keynote speaker, and I look forward to his speech to kick off the Summit.

As with any conference, a significant part of the value of the Summit is what happens outside of the sessions, as you network with your fellow attendees. You can get even more of an education than just the sessions—spend some time in the exhibit hall, take part in refreshment breaks, attend the Communities Reception, or start casual conversations with any Summit attendee you see around the hotel. Consider networking to be an “unofficial education session” and take advantage of having a collection of top technical communicators all in one place.

The learning opportunities don't end in Rosemont, either. Your Summit experience is going to be even greater once again thanks to SUMMIT@aClick. With SUMMIT@aClick, you can “take home” the sessions and access them all year long at your fingertips. We will capture the content of most of the sessions (not including progressions) and synch the audio and visuals together. These virtual sessions will be available roughly six to eight weeks after the Summit—at no extra charge for attendees! This allows you to “attend” sessions you missed live and return again and again throughout the year as you need a refresher or new information. It also gives greater value to your employer, as you can share these sessions with coworkers who were unable to attend.

We also want to thank our exhibitors and sponsors for their support this year. We appreciate that you recognize STC as the best place to connect with professionals in technical communication.

And finally, thank you to all the attendees. We trust you'll enjoy your time here and we look forward to seeing you in Atlanta next year for our 60th Summit!

With best regards,

Hillary Hart
President, 2011–2012

Opening General Session

The Myths of Innovation

STC is pleased to welcome Scott Berkun as the Keynote Speaker for the 2012 Technical Communication Summit in Rosemont, IL.

Scott Berkun is the author of three bestselling books, *Making Things Happen*, *The Myths of Innovation*, and *Confessions of a Public Speaker*. He managed teams at Microsoft from 1994–2003 on projects, including versions 1-5 (not 6) of Internet Explorer. His work as a writer and speaker have appeared in *The New York Times*, *Forbes*, *The Economist*, *The Washington Post*, *Wired*, NPR, and other media. He contributes to *Harvard Business Review* and *BusinessWeek* and has appeared as an innovation expert on MSNBC and CNBC. He currently works as a team lead on <http://WordPress.com>; writes frequently on creativity, management, and communication at his popular blog, <http://scottberkun.com>; and tweets at @berkun.

In Rosemont, Berkun will talk to attendees about “The Myths of Innovation.”

Hype and tall tales dominate how we think about new ideas, and without the truth we are set up to fail as creators, progressives, and leaders in our own time. This fun, fast paced, provocative keynote, based on a fresh take from the bestselling book *The Myths of Innovation* (2010, O'Reilly Media), will dissect the mythologies and the hype-laden marketing propaganda, revealing for you the truths about good ideas and progress you can use in your own work.

Please join us for what promises to be a wonderful kick-off to the 2012 Summit.

Usability. Easier Customization. Lower-Cost Publishing.

The Technical Communication Summit is the annual conference of the Society for Technical Communication. Prior to the start of the conference, on Saturday and Sunday, STC offers optional certificate courses and preconference workshops for an additional fee. You must register for them in advance, as onsite registration is not available for any preconference program.

The conference begins on Sunday evening with the Opening Keynote General Session. Education sessions start at 8:30 AM Monday morning.

The education program is divided into tracks to make it easier to find sessions matching your specific interests. The program also lists the type of presentation and the intended audience.

Most days have 10 sessions offered in each 60-minute period. With more than 80 sessions between Monday morning and Wednesday at 12:30 PM, you'll want to plan how you can get the most education from each day and make time for important networking and fun. All education sessions and Expo events are at the Hyatt Regency O'Hare.

Each day there is unopposed time for visiting the exhibit hall, where attendees have the opportunity to meet with vendors displaying the latest software, equipment, and services, as well as unique solutions to current challenges. Several exceptional sessions by selected vendors will be presented at the Vendor Showcase in the exhibit hall (see pages 18–33).

Summit Name Badges

All events during the Summit require either a name badge or ticket. You will be expected to wear your badge at all events except the Honors Banquet, where your ticket will suffice. Admittance to the Expo requires a name badge. If you have brought a guest, you may purchase an EXPO ONLY registration at the registration desk. Should you misplace your badge, there is a \$10 replacement fee.

BADGE COLORS:

White: Members and exhibitors.

Pink: One-day registrants.

Yellow: Nonmembers. Please make them feel welcome.

Hey, What's That Number on My Badge?

In the upper-left corner of your badge, you'll find a registration number. Don't worry, it's in no way related to your Member ID. Rather, it's something we've added as a lead retrieval system for exhibitors. If you like what you see from one of our exhibitors and would like to talk more after the Summit, they can enter your conference registration number into their smartphone. With that simple act, they'll automatically receive your contact information to follow up with you after the Summit has ended.

Ribbons

Ribbons detailing your involvement with STC are available on a self-serve basis. Look for the ribbons counter at the Summit Registration in the Grand Ballroom foyer.

Donor Ribbons

STC members who have donated \$100 or more to STC since last year's conference are entitled to the special Donor Ribbon. Members who donated \$1,000 or more will have a star pin on their ribbon. These ribbons will be available at the registration desk, where there will be a list of donors. You are welcome to donate to STC at the conference and get your own donor ribbon!

Funds donated to STC at the conference will be put in the general asset fund and be used for various programs benefiting members.

Wireless Service

STC has arranged for wireless Internet connections in areas of the Hyatt. Locations are identified by signage.

REMINDERS

Badges

Unlike the famous line from the movie *Blazing Saddles*, we do need badges! Your badge gives you entrance to all the official Summit events, including the Opening Keynote General Session, all the education sessions, the exhibit hall, and the Communities Reception on Monday evening.

Recording/Videotaping

STC has exclusive recording rights to the conference. Recording or videotaping of any keynote, STC presentation, or session at the conference is not authorized—except as part of our video contest.

You May Be Photographed

An official STC photographer and STC staff will be photographing throughout the conference. Those photos may be used for educational or promotional purposes by STC.

Meet the Authors

Several authors of books sold in the STC Bookstore will be on hand to sign books and discuss their work. Check out the STC Information Booth or Bookstore for schedules.

Speaker Evaluations

STC has gone green with session speaker evaluation forms. Once again they will be collected electronically. Computers to access the evaluation database are in the registration area.

Summit Evaluation Forms

Immediately following the conference, attendees will receive an email with a link to the online conference evaluation form. We would appreciate you taking a few minutes to provide feedback. All comments are read with an eye toward improving your experience at future conferences.

Child Safety

No one under the age of 18 is permitted to attend education sessions, the Expo, or other conference events.

SUMMIT GENERAL INFORMATION

Recharging Stations

STC has set up recharging stations where you can talk with other participants while recharging the battery of your communication device. While we are encouraging you to talk with lots of different people, please be considerate of others who may also need to recharge!

Cyber Cafe

In the STC Central booth in the exhibit hall you'll find two workstations dedicated to checking email. You are welcome to use these anytime the Expo is open. Please be considerate of your fellow participants and limit your time at these stations.

Proceedings

The *Proceedings* of the Summit contains papers written by some of the education session presenters. It is a valuable resource for those who want to continue their learning experience after the conference or refer to the content of a specific session. The *Proceedings* is a Web-based document that has been distributed to all attendees in advance of the meeting.

List of Attendees

A directory of preregistered participants who have consented to have their names and contact information listed is available to attendees in electronic format. If you registered in advance, a copy was emailed to you. You may also request one at the registration desk.

SUMMIT@aClick

STC will again capture the content (audio and visuals) of almost every session and make it available online to attendees at no additional cost. (Sessions to be recorded are marked.) After the conference, STC will synch the audio with the presentations and make it available for attendees (by passcode) on the STC website. You can then view the sessions at your convenience and "attend" those you missed. ***STC's Summit is the only meeting in the technical communication field that offers this added bonus.***

TICKETS

Guest tickets for receptions may be purchased at the Summit Registration counter. Please purchase tickets in advance of the event. Tickets are not sold at the door for the Communities Reception, Honors Banquet, or the Closing Lunch.

EXPO INFORMATION

The exhibit hall is in Grand Ballroom D. The Expo opens Sunday evening with a Welcome Reception to help you connect with friends and colleagues, as well as an opportunity to begin meeting with the exhibitors. There are more than 50 booths showcasing products and services relevant to technical communicators. Refreshment breaks Monday and Tuesday will be set in the exhibit hall.

EXPO HOURS

Sunday: 7:00–8:30 PM
Monday: 9:30 AM–5:00 PM
Tuesday: 9:30 AM–5:00 PM

Vendor Showcase Theater

A number of exhibitors are conducting special presentations about their products. A special Vendor Showcase Theater is set in the Expo for these 60-minute sessions about cutting-edge services, tools, and products. The schedule and details of these presentations are included among the education session listings. The Expo is located in the Grand Ballroom of the Hyatt Regency O'Hare.

STC Consultant's Corner

This year, STC is happy to welcome back the STC Consultant's Corner. Located in the Expo, independent consultants are exhibiting at tables and periodically will be available to discuss how they can enhance ongoing programs, single projects, or contract work.

Expo Giveaway!

Visit the Expo and enter for a chance to win an Apple iPad. Inside your conference tote bag you will find a card printed with a scaled-down version of the Expo floor plan. Each square (with a number) represents the booth space

IMPORTANT

Ticket Exchange for Honors Banquet

If you have purchased a ticket for the Honors Banquet, you need to select a table at which to sit by 5:00 PM on MONDAY, 21 MAY at the Banquet Exchange counter in the Summit Registration area. An STC staff person will review the floor plan with you and confirm your selection. Tables are set for eight people. If you wish to gather a group of friends and reserve a full table, you must present all eight banquet tickets to reserve the table. Tickets are priced at \$80.00 each. **Tickets are not sold at the door and must be purchased by noon on Monday, 21 May.**

of an exhibitor. Take this card to each exhibitor and have a representative initial on their corresponding booth space. Once your card is full, fill out your name and contact information, then place it in the raffle bin at STC Central (located at the back of the Expo Hall). The winner of the Apple iPad will be drawn during the Closing Luncheon, 12:30–2:30 PM, on 23 May.

Employment Information

Looking for a job or that next assignment? Need to hire technical communicators for a project? The Employment Information booth posts résumés and job openings. The Employment Booth is located in the Expo. Members also benefit by seeing new listings on the online Job Bank 14 days ahead of everyone else.

STC Bookstore

Visit the STC Bookstore to find the best books in the field of technical communication. Many of the books have been reviewed in STC's quarterly journal, *Technical Communication*, by members. Books offered onsite address a range of skill levels from novice to experienced technical communicators. The bookstore is in the exhibit hall and is open concurrent with the Expo.

Do you spend more time managing translations than you do writing?

Maybe it's time to call in the professionals.

NETWORKING AND SPECIAL EVENTS

All events are in the Hyatt Regency O'Hare

Welcome Reception and Expo—Sunday, 20 May, 7:00 PM, Grand Ballroom D

This event is included in your registration fee. (Guests are welcome, but an Expo Only badge is required and available at the registration desk.) Start your conference experience on a positive note by connecting with friends and colleagues, networking, and getting an overview of what's new at the Expo. This is a great time to start on your vendor game card!

Student Welcome Lunch—Monday, 21 May, 11:30 AM–12:30 PM, Red Bar

Students are invited to attend this informal gathering offering a perfect opportunity to learn more about STC and the technical communication profession.

SUMMIT OVERVIEW

- More than 80 sessions, organized by 10 tracks
- Conference begins Sunday evening with the keynote speaker—Scott Berkun—and a reception in the Expo
- Registration includes two receptions and morning and afternoon refreshment breaks
- Honors Banquet ticket must be purchased by Noon, Monday, 21 May; table selection must be made by 5:00 PM on Monday, 21 May. See page 10.
- STC will once again capture content (audio and visuals) of most sessions (SUMMIT@aClick) and make it available FREE to all registrants
- Employment Booth in the Expo
- An Education Information counter near the registration area is available for questions about the program, sessions, directions, or general info about the conference
- A Speaker Evaluation station is set up near the Education Information counter so you can electronically complete your evaluations

SIG Business Meetings—Monday and Tuesday, 11:30 AM–12:30 PM

Many of STC's Special Interest Groups (SIGs) have scheduled business meetings during the conference. These meetings are scheduled on Monday and Tuesday during the lunch break. Below is the list of SIGs meeting each day. For additional details about the meeting, contact the manager listed. If you don't see a specific SIG listed they may be having their meeting off-site.

Annual Business Meeting—Monday, 16 May, 5:00 PM, International F

STC is required by New York corporation law to hold an annual business meeting. Only members in good standing may vote.

Communities Reception—Monday, 21 May, 6:30 PM, Grand Ballroom H

This reception honors the communities of STC. If you have not yet joined your local chapter, or want to get more information about a particular Special Interest Group, this is the place you want to be. This reception is included with your full conference registration fee and with Monday Only registration.

Music Jam—Monday, 21 May, 8:00 PM, Grand Ballroom E

Immediately following the Communities Reception on Monday, head next door for the Music Jam for music, dancing, and fun, as STC's own Rough Drafts returns! Founding members Tommy Barker (lead guitar & vocals) and Rich Maggiani (drums) anchor the music scene, with new band members Viqui Dill, Robert Hershenow, and others joining in. As with past shows, there will be an ever-flowing group of musicians entertaining you with rock, pop, rockabilly, and of course, the blues! Musicians, bring an instrument to join in. Everyone else, spend the evening hobnobbing with your STC friends and dancing your heads off all evening long!

Honors Reception and Banquet—Tuesday, 22 May, 7:00 PM, Grand Ballroom H

This popular event honors the Society's newly elected Fellows, Associate Fellows, and award recipients. Business attire is recommended (black tie optional). The reception is open to everyone and does not require a ticket, but the banquet is a ticketed event. Tickets for the banquet must be purchased in advance. Tickets are not available at the door. See the Ticket Exchange notice on page 10 for seating reservations. Tickets are \$80.00 each.

Closing Lunch— Wednesday, 23 May, 12:30 PM, Grand Ballroom H

Get together one last time with old friends, new friends, and colleagues. And walk away with a little information about next year's conference. The cost for this event is \$10.00 for conference participants. Additional tickets are

\$35.00. You must purchase tickets by noon on Tuesday, 22 May, for this event.

Digital Transformation is Bringing Everything Together

Consumers are demanding multi-channel content.

Tablets, smartphones, web and apps — Consumers expect your products to be available to them at all times, everywhere they go. Their expectations are high and growing fast.

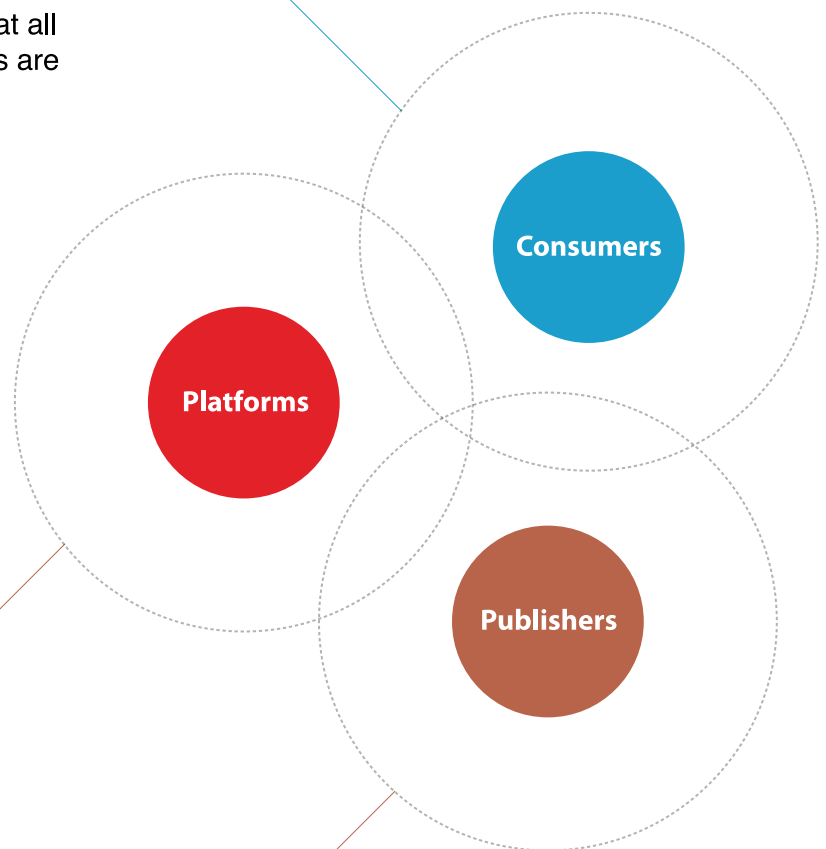

Platforms are multiplying rapidly.

With 300 million tablets and other devices projected to be in the market by 2015, rapid digital adoption will change the way enterprises deliver content.

We're all publishing content now.

Virtually every organization creates, manages and distributes information. Innodata helps companies adapt to the growth of digital adoption and uncover dramatic opportunities to grow their business.

What is STC Central?

Located in the Expo, STC Central is where you can learn about what's going on in the Society and also meet up with friends and colleagues. STC Central is open during all Expo hours.

New this Year!

Various STC committees will be holding "mini-sessions" in STC Central during breaks from the education sessions. This will give attendees the opportunity to hear a short presentation from the committee and ask questions. When there are no mini-sessions being held in STC Central, a television display will be showing PowerPoint presentations from the committees as well.

Monday, 21 May

9:40–9:55 AM, Publications/ Meet the Editors

Meet the editors of *Technical Communication*, Menno de Jong, and *Intercom*, Liz Pohland, who will discuss how to get published, the editorial calendar for the upcoming year, and answer any questions you may have about submitting articles to STC publications.

11:10–11:25 AM, Recognition

Learn about the individual and community awards and honors in STC. Details will include eligibility, qualifications, applications, and deadlines.

3:10–3:25 PM, Nominating Committee

Learn about the various elected positions in STC, and how to apply or nominate someone to run for Society office. You'll learn what qualifications the Nominating Committee look for, and the election process from nomination to ballot box.

4:40–4:55 PM, Summit Program Committee

The Summit Program Committee will discuss the annual Call for Proposals, including what they look for in a proposal, the selection process, and forming each year's final program. Attend this talk and get a head start on your 2013 proposal.

Tuesday, 22 May

9:40–9:55 AM, Certification Commission

Steve Jong, head of the STC Certification Commission, explains what CPTC™ certification is, how to get it, and why you should.

11:10–11:25 AM, Competitions

Learn about the local and international competitions in STC. Find out where you can enter your projects, how to enter, and how projects move from local competitions to the International Summit Awards.

2:10–2:25 PM, Community Affairs Committee

Members of the Community Affairs Committee will be present for Q&A on issues of importance to leaders of chapters and SIGs.

3:40–3:55 PM, STC Treasurer

The Board of Directors is considering alternatives to the community funding model now in place for chapters and SIGs. STC Treasurer Aiessa Moyna will explain the options being considered and collect your input.

It's All Fun and Games ...

STC will have a Nintendo Wii hooked up to a big-screen television and available for play during all hours the Expo is open. (Note: the Wii will be turned off during the STC Central presentations.) Come hang out and have some fun! The high score for the Summit will take home the Wii. The winner will be announced at the Closing Lunch.

Additionally, various board games will be on the tables in STC Central. Catch up with colleagues and relax over a fun game.

Summit Video Contest

Do you have a knack for video production? ***Would you like to win a free registration to the 2013 Summit in Atlanta?*** STC is seeking submissions for the Summit 2012 Video Contest. Entrants are asked to create a video during this year's Summit to be used in the promotion of the 2013 STC Summit and STC's 60th anniversary, which will be celebrated next year. Creativity is encouraged. The theme for this contest is "Why I Love the STC Summit!"

See <http://summit.stc.org> for full details and rules. Two winners will be selected—an STC Staff Favorite and an STC Fan Favorite—and both will receive a complimentary registration for the 2013 STC Summit. See the Summit website for full details of the contest. We look forward to your participation!

Also located in STC Central are:

STC Member Services

Are you aware of the full value of your STC membership? Your membership includes much more than just the publications. The STC staff will be available periodically to answer questions.

STC International Summit Award Winners

The Distinguished Technical Communication winners from STC International Summit Awards will be on display. Take a break between sessions to view the most outstanding work in technical communication.

STC Imprint

STC is partnering with publishers to highlight works that advance the theory and practice of technical communication globally. The Imprint is an STC-branded collection of publications vetted by an editorial review board. If you are interested in participating in the program as either a publishing partner or editorial reviewer, sign up in STC Central.

Progressions

Multiple Discussion Topics Led by Industry Innovators

Progressions are an interactive session format that facilitates a conversational exchange of ideas about a topic. Each progression session offers 6–10 simultaneous discussion topics. Each speaker presents their brief topic to a table of attendees, and then leads a discussion about that topic for about 18 minutes total. Then, attendees have a few minutes to select another discussion topic table. Within the one-hour session, speakers present their topic three times and attendees can select three topics to attend. Since these sessions are interactive, they are not recorded as part of SUMMIT@Click.

In the past, these progressions were organized by special interest group (SIG). This year, we have grouped topics by areas of interest that, in some cases, have combined areas of several SIGs and, in other cases, have allowed us to create progressions for new and different areas of interest. See below for general descriptions of each progression and review the following pages of the program for dates, times, and presenters.

Contracting and Consulting Progression

Several speakers will present and lead discussions about contracting, consulting, and business management topics. These topics include Is There Anyone Out There? Working Virtually; How to be Famous in Your Profession; Personal Content Strategy; Working Successfully as a Consultant; Transform a Prospect Meeting into a Signed Contract; and Virtual Partnerships: New Ways of Working.

Education Progression

Several speakers will present and lead discussions about instructional design and academic topics. Topics include The Learning Resource Metadata Initiative (LRMI); Designing Student Projects for the TC BOK, Tutorial Pacing; Information Design in Undergraduate Posters; Practitioner-Student Interaction: From Classroom to Cloud; eLearning Audio Simplified: Understanding Noise, Distortion, and Gain; and Experiences in Making Experiential Learning Work.

Management Progression

Several speakers will present and lead discussions about people and project management topics. This session is intended for anyone who is working in a management role or who aspires to do so. These topics include Innovate to Motivate: Managing Global Teams; Using Meta-Communication to Manage Successful Online Teams; Under Resourced? Use Agile Components to Increase Productivity; Mentoring 101: Other Duties As Assigned By Manager; Skeleton Key: Growing Influence Beyond Your Department; Managing More Than Tech Comm; and Project Management and Personality Type.

Professional Development Progression

Several speakers will present and lead discussions about topics to help you further your career. Some of these topics are also referred to as soft skills. These topics include SMM 101: 5 C's of Managing Your Presence; Keeping Your Job on Track During Life Transitions; Driving Change: Empowering Yourself to Empower Your Organization; Building the New Resume; Clutch and Cool Tech Comm: How to Train; Expanding Your Sphere of Influence; Greatly Exceeds Expectations; Tips and Tricks for Communicating with Remote Teams; and Break It! A Methodology for INSTANT Innovation.

Usability, User Experience, and Accessibility Progression

Several speakers will present and lead discussions about usability and user experience, and how these areas relate to technical communication. Topics will include How to Encourage Good Use of SharePoint; Card Sort Your Way to Better Information Architecture; Recent ISO Standards and Usability Testing; Getting Started with Personas; Setting up an Eye Tracker System; Is 2012 "Accessibility Armageddon" for Technical Communicators?; and Quantify Your Qualitative Research: Adding Rigor to Heuristic Review.

Writing and Editing Progression

Several speakers will present and lead discussions about creating and refining information through the development workflow. These topics include Style Guide without Tears; Improving Processes Using Business Transformation Tools; Writing for Global Audiences; Developing Yourself as a Policies and Procedures Professional; APIs and SDKs: Breaking into a Specialty Market; Excellence, No Drama; How to Merge Two Corporate Style Guides; Selecting Technology to Support your Content Reuse Strategy; Using Checklists for More Efficient Editing; It's All MarComm: A Tech Writer Goes Fluffy; and Our Users (Sort of) Help Write Our Documentation.

Why Not DocBook?

ROOM: International Ballroom B**FORMAT:** Presentation**SKILL LEVEL:** All

With all the hype about DITA, DocBook sometimes gets forgotten. However, it is still alive, well, and a great choice for many applications, including some that DITA is known for. This talk will make the case for DocBook.

Richard Hamilton, XML Press

CONTENT DEVELOPMENT

Developing for the Unknown

ROOM: Grand Ballroom H**FORMAT:** Presentation**SKILL LEVEL:** All

Today, we create content for output as online help and PDF. But what about tomorrow? Because we don't know, it's increasingly important to create content that's technically clean, consistent, and maintainable or future-proofed. That requires the correct design philosophy and the correct use of control mechanisms—the subject of this presentation.

Neil Perlin, Hyper/Word Services

CONTENT DEVELOPMENT

Editing Evaluation Workshop

ROOM: Florence**FORMAT:** Mini-workshop**SKILL LEVEL:** All

This session offers a 25-minute, one-on-one discussion with an experienced editor who will evaluate your editing of a short document or section of a document. In addition, a written evaluation will be provided.

Lisa Adair, Rockwell Automation**Pat Moell**, SAS Institute Inc.**Michelle Corbin**, IBM**Rebekka Andersen**, University of California, Davis**Linda Oestreich**, OMNITEC/SPAWAR**Kelly Schrank**, Med Communications

CONTENT STRATEGY AND DESIGN

Adapting Ourselves to Adaptive Content

ROOM: Grand Ballroom F**FORMAT:** Presentation**SKILL LEVEL:** All

Why do we waste time and money creating and recreating content instead of planning for content reuse? Why are we still letting content authors plan where their content will “live” on a Web page? What worked for the desktop Web simply won't work for mobile. As our design and development processes evolve, our content workflow has to keep up. Karen will talk about how we have to adapt to creating more flexible content.

Karen McGrane, Bond Art + Science

CONTENT STRATEGY AND DESIGN

Taxonomy: Do I Need One?

ROOM: International Ballroom A**FORMAT:** Presentation**SKILL LEVEL:** New to Topic

A solid taxonomy can be the key to optimizing your content for search, indexing, and gap analysis. It can be your roadmap for the future. Learn what a taxonomy is, how it can benefit you, and how to start developing one.

Leigh White, ElementalSource, LLC

ROOM: London**FORMAT:** Presentation**SKILL LEVEL:** All

This presentation will explore the differences between Machine Translation (MT), Translation Memory (TM), and Tech Comm industry tools that effectively support translation reuse. See how these tools work, how translation companies use them, how translators use them, and how they impact the quality, cost, and timing of your translation projects. Through case studies and examples, you will also learn how to assess which types of tools will best support your translation efforts.

Lisa Pietrangeli, ThirtySix Software

CONTENT STRATEGY AND DESIGN

Beyond the Bleeding Edge, Session 1

ROOM: International Ballroom A**FORMAT:** Presentation**SKILL LEVEL:** All

As technical communication becomes increasingly technical, and as the pace of change accelerates, it's important for technical communicators to stay informed about new technologies, tools, and trends. That's the job of Beyond the Bleeding Edge, a session that provides an early warning system for STC members.

Neil Perlin, Hyper/Word Services**Moderator**

Don't Make Me Look: User-Focused Delivery of Web Content

The City of Vancouver website vision is to deliver information to citizens, before they ask, and in context, to increase transparency and accountability to city residents, by aggregating content onto neighborhood pages. The challenge was to create City Council agendas and minutes that could be delivered within the new CMS framework. The path to success came from the world of tech comm, adapted to a Web CMS schema.

Rahel Bailie, Intentional Design Inc.

Developing an iPhone App Tutorial on a Budget

"We need to get users to download and use our free iPhone App, but it's a non-revenue generating project so the budget is tight." Sound familiar? If so, join me as I explain how I went from script and screen images to a 2.5-minute tutorial in 53 hours of billable time. I'll explain the steps, tools, and challenges, and show you the end result.

Kate Carver, Docs-to-You, LLC

Xinfo

Customers, partners, and industry analysts tell us that our technical information needs to be leaner, easier to search, focused on user scenarios that apply to day-to-day roles, and take advantage of Internet delivery options. To address these issues, the Xinfo initiative was created to focus on: end-to-end view, new technical information roles, scenario-based content, interactive content community, and agile scrum development methodology.

Brian Everett, CA Technologies

CONTENT STRATEGY AND DESIGN

Turning Technical Documentation into Profit

ROOM: Grand Ballroom F**FORMAT:** Presentation**SKILL LEVEL:** All

By thinking differently about technical documentation, retailers can become leaders in their market. In this session, Scott will explore how one retailer became a publisher of online repair manuals designed to teach “do-it-yourselfers” how to fix things, while selling them the goods they need to do the job. Sales are driven completely by visually engaging, standardized instructional content delivered to the Web, to smartphones, and to mobile devices. Return on investment was no longer a wild guess, directly tied to pieces of content. The strategy is so successful that other retailers of products that require assembly, sometimes break, or need occasional maintenance are clamoring to replicate it.

Scott Abel, The Content Wrangler, Inc.

EDUCATION AND TRAINING

Training Evaluation Workshop

ROOM: Florence**FORMAT:** Mini-workshop**SKILL LEVEL:** All

In this workshop, participants can pre-submit course materials for evaluation by one of our expert instructional designers. Each participant will receive both written and verbal comments on their materials. Comments cover all aspects of instructional design and are aimed to provide strengths and opportunities for improvement.

A Pleasure Doing Business

ROOM: International Ballroom B**FORMAT:** Presentation**SKILL LEVEL:** All

What makes something emotionally engaging? Is there a place for delight in business applications? Find out as we redesign a familiar business tool using ideas from behavioral economics, neuroscience, and game mechanics. During this session, Stephen P. Anderson guides you through specific examples of sites who've designed serendipity, arousal, rewards, and other seductive elements into their applications, especially during the post-signup period, when it's so easy to lose people. He'll demonstrate how to engage your users through a process of playful discovery, which is vital whether you make consumer applications or design for the corporate environment.

Stephen Anderson, PoetPainter
